

A MESSAGE FROM THE TOP AT THE VA NEWARK REGIONAL OFFICE

Dear Veteran:

In case you have not heard by now, New Jersey veterans receive some of the lowest monthly disability compensation in the nation. Case review reveals rates are low because too many veterans have not filed claims for increased payment even as their disabilities have worsened. This includes veterans who have combat injuries.

New Jersey has 550,000 veterans! Why continue to wait? Call the toll free number 1-800-827-1000 so we can take your claim over the telephone.

I estimate there are about 10,000 to 12,000 New Jersey veterans who would receive monthly VA compensation if a claim were filed. Call the toll free number 1-800-827-1000 and we can help you file your claim on the spot.

Sincerely,
John F. McCourt, *Director*
